PRE-APPRENTICESHIP PROGRAM

ARE YOU JUST NOT SURE WHAT FUTURE YOU WANT TO PURSUE?

If you are not sure what you want to do, and if you enjoy being outside, working with your hands and working with others - then you should consider a career in construction! If you are not sure which construction field is right for you, check us out. Pre-Apprenticeship can help you decide and make sure your qualifications will meet the industry entry-level standards.

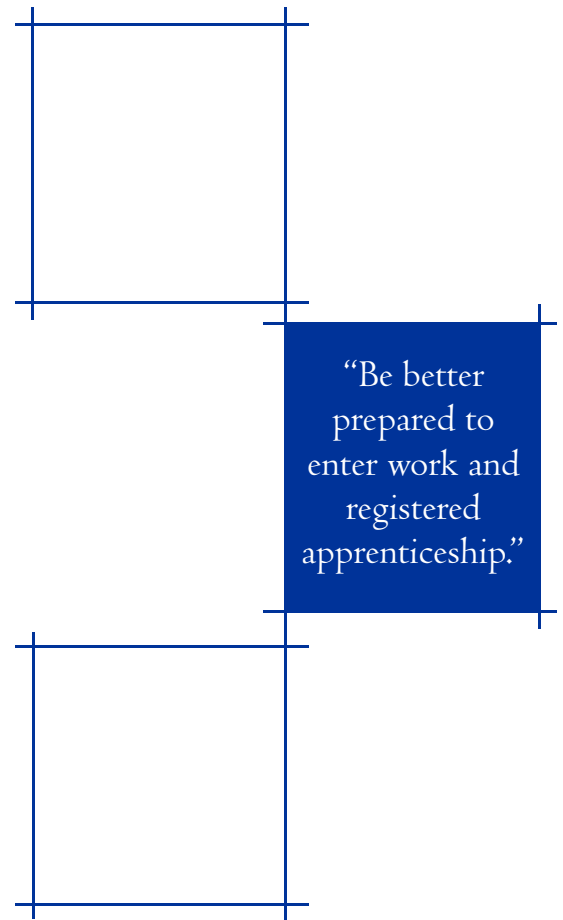

Benefits:

- § Better prepared to enter work and registered apprenticeship
- § Guides you to what industry/job that fits you best
- § OSHA Safety Training
- § First Aid/CPR Training

Pre-Apprenticeship programs are a great way to start exploring careers in construction. These programs cover basic tools and materials, offer an overview of each trade, the qualifications and skills needed for each trade and on-the-job training and related instruction. The programs also offer career-entry advice and emphasize the importance of succeeding in school and in the workforce. Pre-apprenticeship experience is very helpful when wanting to apply to a registered apprenticeship program.

QUALIFICATIONS:

- Must be 16 years of age
- Must be physically able to do the work.

“Be better prepared to enter work and registered apprenticeship.”
